Mental health is a vital component of a child's development and lifelong wellbeing. These courses have been developed to build your knowledge of child mental health and the opportunities you have to improve child outcomes.

1 HR	Understanding child mental health This course explores mental health for children aged 0-12 years. It will help practitioners to identify the facts that support positive mental health in children.
3 HR	Intergenerational mental health This course supports professionals to apply an 'intergenerational lens' to their work, to better understand histories and impacts of family disadvantage.
1 HR	The impact of trauma on the child This course introduces key understandings about trauma and adversity, and their impact on children.
4 HR	Supporting children who have experienced trauma This course aims to use trauma-informed practice to study the detail and skills of therapeutic engagement.
2 HR	Engaging with parents This course focuses on ways to actively and effectively engage with parents about their children's social and emotional wellbeing.
1 HR	Engaging with children This course introduces the concepts of engaging children as partners in practice, as a foundation for responding to child mental health concerns.
1.5 HR	Working with First Nations families and children - A framework for understanding This course is designed to assist non-Aboriginal practitioners to develop the skills and understanding to build genuine partnerships.
